- 
- UP Board in PCM with 62% (2020)

Kaushambi Public School Vidhanpur Kaisa, Kaushambi, Uttar Pradesh

- CBSE Board with 08.4 CGPA (2017)

Projects

Redux CRUD API

In this project we saw how to set up and use the RTK Query API to handle data fetching and caching in our application. We added an "API slice" to our Redux store, defined "query" endpoints to fetch posts data, and a "mutation" endpoint to add a new post.

Edusity | React JS Project

In this project I build and deploy complete responsive website using React JS. I create a college or University website in this project. This website will be completely responsive and we will add react smooth scroll, slider and working contact form on this website. You can receive the contact form enquirers on your email address. This website will be a great react project.

Travel Explore

In this project I'm going to create our first project using HTML and CSS. In this project we will use everything we have learned so far like CSS floats, positions, css basic things. We will create this website responsive and this website will look good in mobiles too.
